Program Technical Bulletin 04

In accordance with the launch of the new Net Zero Renovations Program, updates have been made to the Program Requirements documentation.

The updated documents can be found on the Net Zero Program Requirements web page **here**.

1. CHBA Net Zero Home Labelling Program For Renovations Technical Requirement – Version 1

- This new document outlines the Technical Requirements that must be met for a renovated home to qualify as Net Zero or Net Zero Ready Renovation.

2. CHBA Net Zero Home Labelling Program Administrative Requirements – Version 1.3

- The Program's Administrative Requirements document has been updated to now include the administrative processes for homes and participants qualifying under the new Net Zero Renovations Program. The Administrative Requirements document is intended to service the entire CHBA Net Zero Home Labelling Program, whereas the Renovations label and the New Homes label each have a specific Technical Requirements document

If you have questions please, **contact Brett Cass**.
